Nfoye Djomo Daryl Dewilde

Software Engineer — Full-Stack Developer — Open Source Enthusiast

 Douala, Cameroon   nfoyedewilde@gmail.com   +237 699-25-57-53   daryldev.koyeb.app

◎ Objective

Software Engineer passionate about Linux, Ubuntu, and open source software, with strong skills in Python, Git, and Docker (containers). Building expertise in full-stack development and distributed systems. Seeking to contribute to innovative projects that make technology accessible, secure, and impactful worldwide.

🎓 Education

- **B.Tech in Software Engineering**, University of Douala (2024)
- **DUT in Computer Engineering**, University of Douala (2023)
- **GCE Advanced Level in Science**, NAL Bilingual Academic Complex (2021)
- **GCE Ordinary Level in Science**, NAL Bilingual Academic Complex (2019)

✖ Technical Skills

- **Languages**: Python, JavaScript, PHP, C (basic), Golang (learning)
- **Frameworks**: Django, Flask, React, Bootstrap, Material UI, Cypress
- **Databases**: MySQL, SQLite, PostgreSQL (basic)
- **Systems & Tools**: Ubuntu/Linux, Git, Docker, CI/CD
- **Other**: Algorithms, Data Structures, OOP — Fluent in English & French

❇ Certifications

- CS50W: Web Programming with Python & JavaScript – Harvard (2023)
- CS50P: Introduction to Programming with Python – Harvard (2023)
- CS50X: Introduction to Computer Science – Harvard (2023)
- CS50T: Understanding Technology – Harvard (2022)

💼 Experience

- **Software Engineer Trainee**, Maviance PLC (Jan 2025–Present) – Contributed to micro-frontends and improved QA automation in Git/Linux environments.
- **Full-Stack Developer Intern**, FGCL (Sep–Nov 2024) – Built Django/React apps; optimized APIs and database queries.
- **Web/Mobile Intern**, QTA Tech (Jun–Aug 2024) – Developed mobile-friendly apps with REST APIs; deployed on Ubuntu servers.
- **Software Engineer Intern**, FGCL (Dec 2023–May 2024) – Implemented new features and supported QA testing.

⌘ Projects

- **Tech Quiz App**: React + TypeScript platform with CRUD API, leaderboards, admin panel, dark/light mode.
- **E-commerce Toys Website**: Prototype store for children's toys.
- **Story Sharing Web App**: Platform for sharing/streaming text, audio, and video stories.
- **Stock & Sales Management System**: Web/mobile app for sales, invoices, barcode scanning .
- **AI Text Generation Web App**: Flask + GPT-3 API for summaries and translations.
- **Ebay-like Auction Website**: Django site for auctions with bids, comments, watchlists.
